Allowable Subject Matter

1. Claims 1, 4-6 and 9-12 are allowed over the prior art.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or render obvious the combination, cooperation and interaction that applicant claimed an electrical card connector comprising an electronic card having a notch on one side thereof, an insulative housing having a receptacle portion for receiving the card, an inclined surface, and a slot at a lower end of the inclined surface, an ejector mounted to the housing, the ejector comprises a locking branch having a locking portion, wherein the locking branch aligned with the inclined surface and the locking portion is releasably engagable with the slot, and wherein the card is initially inserted into the receptacle portion, the locking portion is retained in the slot so that the card is freely inserted into the receptacle portion of the housing, and when the card is fully inserted into the receptacle portion of the housing, the locking portion is received in the notch of the card, as recited with other limitations in the independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
